CAREER SUMMARY

Detail-oriented and analytically minded Data Analyst with hands-on project experience in Excel, SQL, Python, Power BI, and Tableau. Skilled at cleaning, analyzing, and visualizing data to uncover trends and support data-driven decision-making. Certified across the core BI and analytics toolchain, with a strong foundation in statistics from a B.A. in Economics. Eager to apply analytical rigor and problem-solving skills to deliver measurable business insights.

CORE SKILLS

Data Analysis & Tools: Excel (Pivot Tables, VLOOKUP, Charts), SQL (Joins, Aggregations, Subqueries), Python (Pandas, NumPy, Matplotlib, Seaborn)

Business Intelligence: Power BI, Tableau — interactive dashboards, data storytelling

Techniques: Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Trend & Pattern Analysis

Core Competencies: Analytical Thinking, Problem Solving, Attention to Detail, Data Visualization, Quick Learning, Communication

PROJECTS

Sales Data Analysis Excel & SQL | 2024

- Cleaned and analyzed a multi-region sales dataset to identify top-performing products, regions, and customer segments.
- Built pivot tables and charts in Excel to surface actionable insights for business stakeholders.
- Wrote SQL queries (joins, aggregations, filtering) to extract and analyze key sales metrics from relational tables.

Customer Churn Analysis Python | 2024

- Performed data cleaning and exploratory data analysis (EDA) on a customer dataset to uncover churn drivers.
- Used Pandas, Matplotlib, and Seaborn to visualize churn patterns and customer behavior trends.
- Identified key factors influencing customer churn and proposed data-backed retention strategies.

Economic Data Analysis Excel & Tableau | 2023

- Analyzed macroeconomic indicators and market trends to identify growth patterns using Excel.
- Designed interactive Tableau dashboards to present findings clearly to non-technical audiences.
- Delivered insights on economic growth factors to support academic and analytical conclusions.

EXPERIENCE

Aspiring Data Analyst Independent Projects & Self-Learning | 2025 - Present

- Built hands-on proficiency in data analysis through self-directed projects and structured online coursework.
- Interpreted datasets to identify trends and patterns that support data-driven decision-making.
- Built dashboards and reports using Excel, SQL, Power BI, and Tableau for end-to-end analysis workflows.
- Practiced the full analytics pipeline: data cleaning, transformation, analysis, and visualization.

EDUCATION

B.A. in Economics 2023 - 2025

K.V. Pendarkar College, Mumbai University

CERTIFICATIONS

- Microsoft Excel for Data Analysis — Coursera
- SQL for Data Analysis — Udemy
- Python for Data Analysis — Udemy
- Power BI for Business Intelligence — Microsoft Learn
- Data Visualization with Tableau — Coursera
