

NIRAJ LAXMAN JADHAV

Data Analyst & BI Specialist

Transforming complex raw data into actionable business intelligence and visual stories.

Koper, Mumbai, India | +91 7208701481 | jadhavniraj793@gmail.com | linkedin.com/in/niraj-jadnav-b31

CAREER SUMMARY

Detail-oriented and analytically minded Data Analyst with hands-on project experience in Excel, SQL, Python, Power BI, and Tableau. Skilled at cleaning, analyzing, and visualizing data to uncover trends and support data-driven decision-making. Certified across the core BI and analytics toolchain, with a strong foundation in statistics from a B.A. in Economics. Eager to apply analytical rigor and problem-solving skills to deliver measurable business insights.

CORE SKILLS

Data Analysis & Tools	Excel (Pivot Tables, VLOOKUP, Charts), SQL (Joins, Aggregations, Subqueries), Python (Pandas, NumPy, Matplotlib, Seaborn)
Business Intelligence Techniques	Power BI, Tableau, Interactive Dashboards, Data Storytelling Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Trend & Pattern Analysis
Core Competencies	Analytical Thinking, Problem Solving, Attention to Detail, Data Visualization, Quick Learning, Communication

FEATURED PROJECTS

Sales Data Analysis	Excel, SQL 2024
- Cleaned and analyzed a multi-region sales dataset to identify top-performing products, regions, and customer segments. - Built pivot tables and charts in Excel to surface actionable insights for stakeholders. - Wrote complex SQL queries (joins, aggregations, filtering) to extract and analyze key sales metrics.	
Customer Churn Analysis	Python (Pandas, Matplotlib, Seaborn) 2024
- Performed deep data cleaning and exploratory data analysis (EDA) to detect churn patterns. - Visualized customer behavior trends and correlation matrices. - Identified key factors influencing churn and proposed data-backed retention strategies.	
Economic Data Analysis	Excel, Tableau 2023
- Analyzed macroeconomic indicators and market trends to identify economic growth drivers. - Designed interactive Tableau dashboards for clear presentation to non-technical audiences. - Delivered insights supporting academic and analytical business conclusions.	

EXPERIENCE

Aspiring Data Analyst - Independent Projects & Self-Learning	2025 - Present
Self-directed Remote	
- Built end-to-end data pipelines: ingestion, cleaning, transformation and validation on real-world datasets. - Developed interactive dashboards in Power BI and Tableau to track business KPIs and performance trends. - Ran exploratory analysis in Python (Pandas, NumPy, Seaborn) to surface correlations, outliers and segment behaviour. - Modelled real-world business metrics - revenue, churn, retention and growth - with stakeholder-ready reporting.	

EDUCATION

B.A. in Economics	2023 - 2025
KV Pendarkar College, Mumbai University	
- Statistical foundation: descriptive statistics, probability, hypothesis testing and econometrics. - Applied economic theory to live market data, drawing analytical conclusions from primary indicators.
